FUNERAL OF SERGIUS

WILL NOT BE HELD IN THE RUSSIAN CAPITAL UNTIL CONDITIONS CHANGE.

DYNASTY WOULD BE IN PERIL

CZAR AND HIS FAMILY MIGHT BE WIPED OUT WHILE FOLLOWING THE COFFIN.

St. Petersburg, Feb. 20.—It has now been definitely decided that the remains of Grand Duke Sergius will not be brought to St. Petersburg for the present, but will be placed in a temporary receiving vault of the cloister of the Chaudoff monastery, to await the completion of the alterations now in progress in the Romanoff mausoleum in the cathedral of St. Peter and St. Paul, where the permanent interment will occur among the tombs of his ancestors.

On account of lack of space in the mausoleum, it was decided last year hereafter to bury only rulers of the dynasty in the old mausoleum and a new sepulchre in the new wing of the cathedral is now being built for other members of the imperial family.

This, however, is not the only reason for the decision not to bring the remains to the capital now. Even Governor General Trepoff has recognized the fact that no precautions can furnish an absolute guarantee of immunity against an act of terrorism; and at a great funeral, where ancient custom requires that the emperor and all of the Romanoff family assemble and follow the coffin on foot, a single bomb might wipe out the dynasty.

Czar Not Going to Moscow.

Regard for the personal safety of the sovereign also has led to the decision that the emperor shall not go to Moscow to attend the funeral of his uncle. It is possible that no member of the imperial family will be present on that occasion except those who are now within the walls of the Kremlin. Grand Dukes Constantine and Paul probably will represent the emperor at the service.

So grave is the danger a repetition of the Moscow tragedy that several grand dukes have not stirred outside of their palaces since the murder and instead of going to Tsarskoe Selo to attend the requiem there they have participated in special services held in the chapels of their own palaces.

This was the case as regards the Grand Dukes Vladimir and Alexis.

A special requiem also was held in the winter palace that Governor General Trepoff is known to be under sentence by the fighting organization of the Social Revolutionists and as far as can be ascertained has not left his quarters in the palace since the assassination of Grand Duke Sergius.

Dispatches from the interior say that requiems for the grand duke have been held throughout Russia.

Public Greatly Concerned.

The public is greatly concerned over the developments of the immediate future. Other terrorist crimes are generally anticipated. According to reports many cities and towns are in a condition of political ferment and several officials have been assassinated in Southern Russia. According to a telephone message from Moscow the students there are afraid to appear on the streets in uniform.

In addition the strike situation has again grown menacing, especially in the matter of the railroads, three of which entering Moscow are almost completely tied up. In St. Petersburg the strike has assumed the form of a lockout, the Putloff iron works, the Franco-Russian works, the Russo-American rubber works and a few smaller concerns having discharged all their employes with the notice that the works will be closed indefinitely. Consequently there are the most alarming reports afloat as to what the men will do. With 30,000 or 40,000 men out of work for an indefinite period, even if no more join the ranks of the idle, rioting and collisions with the police are feared. From the attitude of the men many of the masters are convinced that they have received financial assistance from some source.

Embarrasses the Government.

The closing of the Franco-Russian and the Putloff iron works is a serious embarrassment to the government, as the former is engaged exclusively on navy work and the latter in manufacturing guns and munitions for the army. Over 25,000,000 projectiles and shrapnel are being prepared at the Putloff works and the government has been compelled within the past few days to place orders in France and Germany for \$125,000,000 worth of munitions. At the government-owned Nevsky works, the minister of finance has been able to hold the men only by conceding everything they have demanded, including the eight-hour day.

The employers, in a letter to Finance Minister Kokosovoff, squarely disclaim all responsibility for settling the labor ferment, declaring that the strike is not of economic origin and that the nature of the men's grievances can only be adjusted by political reforms. They claim that the condition of industry in Russia renders yielding to the demands of the men utterly impossible.

A telegram from Svehun reports a serious riot, workmen wrecking the house of a suspected political informant. In the fight between the rioters and the police, one of the former was killed. Several of the rioters and a policeman were wounded.

ASSASSIN REMAINS SILENT.

Slayer of Grand Duke Sergius Refuses to Talk.

Moscow, Feb. 20.—A thin layer of snow has dimmed the blood stains in the Senate square. The windows in the palace of justice have been reglazed and other hasty efforts have been made to obliterate traces of Friday's tragedy. Evidence, however, is being found in most unexpected places. Soldiers have discovered many pieces of the carriage in which Grand Duke Sergius was riding when he met his death, and fragments of flesh were found on the top of the twelve-foot parapet of the arsenal, among the Napoleonic guns.

Until the funeral, which has been fixed for Thursday, Feb. 23, the remains of Grand Duke Sergius will rest in the ancient dining room of the Chaudoff monastery, to which throughout the day the people of Moscow have been admitted to pay their last respects in parties of 100. This precaution was taken because it was thought necessary to avoid the possibility of demonstrations. The body of the grand duke, dressed in the uniform of the Fifth (Kieff) grenadiers, of which he was the honorary colonel, rests in an oak coffin. Only the breast of the uniform, upon which is an ikon of the Saviour and the orders of the grand duke, is visible. The Bible beside the head of the coffin bears the orthodox cross in silver and the imperial eagles.

Assassin Not Identified.

The assassin remains persistently silent. His identity has not yet been established, and although the police have been investigating diligently they have been unable to gather up the threads of the plot or find any clues to any possible accomplice. The assassin's papers and clothes offer no means of identification and his pass evidently was forged, and appears never to have been used. Photographs have been taken to be dispatched to all the universities; but if the assassin is actually a workman and not a student the police may find themselves utterly at sea.

Grand Duke Sergius' coachman, who was thought to be dying at the time of the affair, is still alive and better, but is not yet out of danger.

The city presents an aspect of deep gloom. There is no music in the restaurants and there are no performances at the theaters. The imperial manifesto voicing the grief of the emperor is posted at street corners throughout the city, and the crime still forms the only topic of discussion.

Many mourning wreaths from royal personages and prominent officials have arrived and have been placed in the monastery around the coffin.

CUT THE RUSSIAN RAILWAY.

Japs and Chinese Bandits on a Raid Towards Harbin.

Harbin, Feb. 20.—A party of Japanese and Chinese bandits destroyed the abutment of the railway near Yaomyn, 100 miles distant from here, but the damage was all repaired in a few hours. Frontier guards heard an explosion and found that a charge of gun cotton had been exploded against the abutment. Two telegraph poles were also destroyed. An unexploded charge of gun cotton was found 400 feet from the place where the explosion occurred.

These attempts on the railway are believed to have been made to cover movements of large bodies of Chinese bandits across Mongolia.

A service was held in the cathedral here Sunday in memory of Grand Duke Sergius. Military, civil and railroad officials were present.

RUSSIANS HARD AT WORK.

Continue to Extend Defensive Works in All Directions.

Tokio, Feb. 20.—Field Marshal Oyama reports that the Russians are continuing their defensive works in all directions. They continued to shell portions of the Japanese line on Friday. On the same day they essayed a small infantry attack but were repulsed.

BULGARIANS AND TURKS FIGHT.

Twenty of the Former Either Killed or Wounded.

Salonica, Feb. 20.—In a fight between Bulgarians and Turks at the village of Kuklitch, near Strumitza, on Feb. 16, the Bulgarians lost twenty killed or wounded. The Turks subsequently burned the village. A commission of inquiry sent to the spot from this city discovered the ruins of the village the charred remains of fourteen women and children.

HEAVY LOSS BY FIRE

PROPERTY VALUED AT MORE THAN ONE MILLION DOLLARS IS DESTROYED.

EIGHT BUILDINGS BURNED

FLAMES THREATENED TO WIPE OUT BUSINESS DISTRICT OF INDIANAPOLIS.

Indianapolis, Feb. 20.—Fire during the night completely destroyed eight buildings, among which were three hotels, causing a loss estimated at \$1,500,000. One fireman was seriously injured by falling walls.

For four hours the wholesale district, bounded by Georgia and Meridian streets, Jackson Place and the union depot sheds, was menaced by the fire which started in the wholesale warerooms of the Fahney & McCrea Millinery company. Fire brands fell in a perfect storm over the business portion of the city. On every building were stationed companies of men equipped with fire apparatus and it was only through their united efforts that a general conflagration was prevented. Several serious explosions occurred in the A. Kiefer Drug company's warerooms, where many barrels of oils and explosives were stored, and in the Deimetsch company's wholesale house, where a season's stock of fireworks was located.

One fireman sustained a broken leg and in the rush to escape from their perilous position near the falling walls hundreds of spectators who thronged the space in front of the union station, narrowly escaped death or serious injury.

Within a few minutes the east wall fell across Meridian street, completely blocking traffic, but no one was injured. The flames, which spread across Louisiana street, were communicated to the union station train sheds and for several minutes the efforts of the firemen were centered in that direction.

Most Spectacular Fire.

The fire, which was one of the most spectacular in the history of the city, was under full headway before an alarm was sounded. The first intimation of a fire was received when a watchman saw the windows on the second and third floors of the east front of Fahney & McCrea's building burst open, allowing sheets of flames to escape into Meridian street. A general alarm followed by two others in rapid succession were turned in and by the time the first company reached the scene the millinery house was almost completely gutted and the fire had spread to the Kiefer Drug company's building. Simultaneously the flames broke out in Jackson Place, which bounds the Fahney & McCrea building on the west, and almost instantly the flames were communicated to the St. Nicholas hotel and the Griffiths Bros' millinery house in Jackson Place, and the Savoy hotel in Louisiana street.

The occupants of the hotels, many of whom had not retired, escaped without injury.

A spark from the fire in the wholesale district, several blocks away, set fire to the roof of the Grand hotel. A 4-11 alarm summoned all available departments. All of the guests were aroused and on account of the damage by water were compelled to seek other lodgings. The loss is estimated at \$1,500.

BISHOP McLAREN IS DEAD.

Noted Episcopal Prelate Passes Away in New York City.

New York, Feb. 20.—Rt. Rev. William E. McLaren, protestant Episcopal bishop of Chicago, died here at night. Death was due to heart failure. The bishop had been ill for more than a month, during the greater part of which time he was confined to his bed. The members of the bishop's family, with a few friends, were at the bedside when the end came. Besides a widow the deceased is survived by one son and two daughters.

Bishop McLaren was born in Geneva, N. Y., in 1831. In 1860 he entered the Presbyterian ministry and eleven years later embraced the Episcopal faith and was ordained in Detroit in 1872. He was consecrated bishop in 1875. Bishop McLaren founded the Western Theological seminary in Chicago in 1883 and was the author of many religious works.

ONE KILLED AND TWO INJURED.

Dynamite Explodes Prematurely in a Michigan Mine.

Calumet, Mich., Feb. 20.—A premature explosion of a charge of dynamite killed David McDowell and seriously injured Peter McGinn and another man employed in the Massaghebets Consolidated mine in Ontonagon county.

McDowell lived until taken to the surface, his body being horribly cut up. McGinn had both eyes blown out and his jaw broken, one arm was broken in five places and he sustained other severe injuries. The other man had a narrow escape and suffered scalp wounds.

While trying to loosen some hanging rock Angelito Victoria was killed in the Osceola Consolidated mines. He was a trapper, aged twenty-three.

RUINED BUILDING COLLAPSES.

One Person Killed and Two Others Injured at Chicago.

Chicago, Feb. 20.—One person was killed, two others were injured, and several narrowly escaped, as the result of the collapse of a ruined building at 519 West Fourteenth street during the afternoon. The structure, which was wrecked by fire two years ago, fell while boys were searching in it for wood for fuel. One of the youngsters had chopped through one of the main supports when the wall suddenly collapsed. Harry Goldberg, aged seventeen, was caught by a falling timber and probably instantly killed. His body was pulled out by firemen.

FUNERAL OF SERGIUS

Twenty of the Former Either Killed or Wounded.

Salonica, Feb. 20.—In a fight between Bulgarians and Turks at the village of Kuklitch, near Strumitza, on Feb. 16, the Bulgarians lost twenty killed or wounded. The Turks subsequently burned the village. A commission of inquiry sent to the spot from this city discovered in the ruins of the village the charred remains of fourteen women and children.

HEAVY LOSS BY FIRE

PROPERTY VALUED AT MORE THAN ONE MILLION DOLLARS IS DESTROYED.

EIGHT BUILDINGS BURNED

FLAMES THREATENED TO WIPE OUT BUSINESS DISTRICT OF INDIANAPOLIS.

Indianapolis, Feb. 20.—Fire during the night completely destroyed eight buildings, among which were three hotels, causing a loss estimated at \$1,500,000. One fireman was seriously injured by falling walls.

For four hours the wholesale district, bounded by Georgia and Meridian streets, Jackson Place and the union depot sheds, was menaced by the fire which started in the wholesale warerooms of the Fahnley & McCrea Millinery company. Fire brands fell in a perfect storm over the business portion of the city. On every building were stationed companies of men equipped with fire apparatus and it was only through their united efforts that a general conflagration was prevented. Several serious explosions occurred in the A. Kiefer Drug company's warerooms, where many barrels of oils and explosives were stored, and in the Deimetsch company's wholesale house, where a season's stock of fireworks was located.

One fireman sustained a broken leg and in the rush to escape from their perilous position near the falling walls hundreds of spectators who thronged the space in front of the union station, narrowly escaped death or serious injury.

Within a few minutes the east wall fell across Meridian street, completely blocking traffic, but no one was injured. The flames, which spread across Louisiana street, were communicated to the union station train sheds and for several minutes the efforts of the firemen were centered in that direction.

Most Spectacular Fire.

The fire, which was one of the most spectacular in the history of the city, was under full headway before an alarm was sounded. The first intimation of a fire was received when a watchman saw the windows on the second and third floors of the east front of Fahnley & McCrea's building burst open, allowing sheets of flames to escape into Meridian street. A general alarm followed by two others in rapid succession were turned in and by the time the first company reached the scene the millinery house was almost completely gutted and the fire had spread to the Kiefer Drug company's building. Simultaneously the flames broke out in Jackson Place, which bounds the Fahnley & McCrea building on the west, and almost instantly the flames were communicated to the St. Nicholas hotel, and the Griffiths Bros.' millinery house in Jackson Place, and the Savoy hotel in Louisiana street.

The occupants of the hotels, many of whom had not retired, escaped without injury.

A spark from the fire in the wholesale district, several blocks away, set fire to the roof of the Grand hotel. A 4-11 alarm summoned all available departments. All of the guests were aroused and on account of the damage by water were compelled to seek other lodgings. The loss is estimated at \$1,500,000.

BISHOP McLAREN IS DEAD.

Noted Episcopal Prelate Passes Away in New York City.

New York, Feb. 20.—Rt. Rev. William E. McLaren, protestant Episcopal bishop of Chicago, died here at night. Death was due to heart failure. The bishop had been ill for more than a month, during the greater part of which time he was confined to his bed. The members of the bishop's family, with a few friends, were at the bedside when the end came. Besides a widow the deceased is survived by one son and two daughters.

Bishop McLaren was born in Geneva, N. Y., in 1831. In 1860 he entered the Presbyterian ministry and eleven years later embraced the Episcopal faith and was ordained in Detroit in 1872. He was consecrated bishop in 1875. Bishop McLaren founded the Western Theological seminary in Chicago in 1883 and was the author of many religious works.

TWENTY PEOPLE PERISH.

ONE KILLED AND TWO INJURED.

Dynamite Explodes Prematurely in a Michigan Mine.

Calumet, Mich., Feb. 20.—A premature explosion of a charge of dynamite killed David McDowell and seriously injured Peter McGinn and another man employed in the Massachusetts Consolidated mine in Ontonagon county.

McDowell lived until taken to the surface, his body being horribly cut up. McGinn had both eyes blown out and his jaw broken, one arm was broken in five places and he sustained other severe injuries. The other man had a narrow escape and suffered scalp wounds.

While trying to loosen some hanging rock Angeletto Victoria was killed in the Osceola Consolidated mines. He was a trapper, aged twenty-three.

RUINED BUILDING COLLAPSES.

One Person Killed and Two Others Injured at Chicago.

Chicago, Feb. 20.—One person was killed, two others were injured, and several narrowly escaped, as the result of the collapse of a ruined building at 519 West Fourteenth street during the afternoon. The structure, which was wrecked by fire two years ago, fell while boys were searching in it for wood for fuel. One of the youngsters had chopped through one of the main supports when the wall suddenly collapsed. Harry Goldberg, aged seventeen, was caught by a falling timber and probably instantly killed. His body was pulled out by firemen.

The funeral services will be held at the home on Wednesday afternoon at 2 o'clock.

TESTED AND PROVEN.

There is a Heap of Solace in Being Able to Depend Upon a Well-earned Reputation.

For months Brainerd readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

Mrs. John C. Beck, of 615 Maple St., Brainerd, Minn., says: "The merits of Doan's Kidney Pills are second to no other kidney medicine. Mr. Beck suffered with his back and kidneys for a long time. There were continual pains and an annoyance from a disturbed condition of the kidneys. He tried one treatment after another but always without noticeable benefit. Doan's Kidney Pills were so highly recommended that he decided to try them and procured a box at H. P. Dunn & Co.'s drug store. It proved just the remedy he needed for the benefit was prompt and effective from the first dose and a continued use of Doan's Kidney Pills entirely eradicated the whole trouble." Sold for 50 cents a box by H. P. Dunn & Co., and all druggists. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

EN MAY NOT STRIKE.

Incarnations Point to Settlement of Trouble on New Haven Road.

New Haven, Conn., Feb. 20.—No strike of the firemen on the New York, New Haven and Hartford railway will be declared except as the weapon of last resort. This, in effect, was the announcement made by Second Vice Grand Master Timothy Shea at the close of what was practically an all day session of the adjustment committee of the brotherhood. The committee was called to discuss the matter and count the ballots recently cast giving the committee full power. According to Mr. Shea, the ballot was the largest ever cast on any question by the brotherhood of this system and it is overwhelmingly in favor of giving the committee full authority to act as it sees fit.

Mr. Shea said that there was a determined fact that there could be no strike this week.

Mr. Shea and a sub-committee of the adjustment committee will go to New York to resume discussion of the plan of arbitration now proposed and before their return the plan will be arranged in all its details, it is expected, and formally laid before the officers of the railway company. So sanguine is Mr. Shea that the new plan will prove a solution of the problem that he thinks the acute stage will have been passed by midweek and the firemen will be satisfied with what has been agreed upon.

WILL BE OPEN SUNDAYS

Library Board Decides to Open the Public Library Reading Room From 2 to 6 O'clock on Sundays

The board of directors of the Brainerd public library at a meeting a few evenings ago decided to open the reading rooms of the library from 2 to 6 o'clock on Sundays, commencing with next Sunday, February 26. No books will be given out on Sundays but the reading room proper will be open to the public.

A committee was instructed to subscribe for a number of current magazines which will be kept on file in the future. For this extra time on Sunday Miss Burgoyne will be allowed extra compensation.

An Extensive Tour

"The Phoenix (Arizona) Republican contains the following notice concerning a former well known citizen of this city: William Percy, master car builder of Wisconsin Central railroad with headquarters at Fond-du-lac, Wis., is visiting with his son, W. G. Percy and family, at Alhambra. During the two months vacation which Mr. Percy is enjoying he had planned an interesting trip. Going west from St. Paul over the N. P. Ry., he spent two weeks at Tacoma, visiting another son, J. W., who is a locomotive machinist, and also visited at Seattle and other Puget Sound points. From Tacoma he made stops at Portland and San Francisco and then spent some time at the principal cities and ocean resorts of southern California, stopping at Phoenix en route home. Coming from Wisconsin, where the temperature is at present below zero, Mr. Percy naturally has much praise for the beautiful winter climate of California and Arizona. After a drive over the valley visiting the points of interest, orange groves, etc., he was much pleased with the agricultural features and enjoyed the green fields in contrast to the snowy mantles of the season at home. After leaving for his home Mr. Percy will stop at Williams and visit the Grand Canyon of Arizona."

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent this development of fatal disease if taken in time. H. P. Dunn & Co.

IN TRIBUTE TO SENATOR QUAY.

House Conducts Memorial Exercises and Listens to Eulogies.

Washington, Feb. 20.—The house of representatives Sunday conducted memorial exercises in tribute to the memory of the late Senator Matthew S. Quay of Pennsylvania. Mr. Dalzell presided. Several members eulogized Mr. Quay's life and character. The remarks were especially expressive of the esteem in which he was held and extolled him as a man, as a useful public servant and as an organizer of wonderful ability.

After the adoption of appropriate resolutions, the house at 1:40 p. m., as a further mark of respect, adjourned.

Won Each Time.

About thirty years ago a remarkable bet was made between Captain M., a racing celebrity, and another officer who was noted for his activity. Captain M. bet £50 that his fellow officer would not hop up a certain flight of stairs "two at a time." The offer was taken; but, as there were forty-one steps in the flight, he found after taking twenty hops that he was left only one step to negotiate and had lost. He accused Captain M. of sharp practice, but the latter replied:

"Well, I'll wager you another £50 I do it."

The officer, thinking to get back his money, again accepted. Captain M. then hopped up forty steps in twenty hops and, hopping back one, finished by going up the last two steps and won.—London Standard.

It Sounded Big.

"Bragley's a publisher, isn't he?"
"Not at all. What made you think that?"

"He told me he was a disseminator of light literature."

CAR THEIVES

BUSY AGAIN

Refrigerator Car of the Armour Packing Company Broken Into Last Night

QUANTITY OF MEAT STOLEN

Officials are Investigating the Matter and Hope to Apprehend the Guilty Parties

The Northern Pacific has been troubled more or less during the past few years with car thieves in the yards in this city. Special officers of the company have been at work and it was thought that the gang that was operating was pretty well cleaned out, but they got busy again last night and a refrigerator car loaded with Armour Packing company meat was broken into and a large quantity of goods stolen.

The officials are on track of what they believe to be a good clue to the guilty parties. The value of the goods and the quantity cannot be determined until the invoices are received from the company, but the value of the meat stolen will reach quite a sum. It is thought that the work was that of a gang of bad youngsters who have been very busy for some time.

Dangerous Vertigo.

Dizziness or Swimming of the Head Associated With a Sense of Fullness, Dull Pain or Nervous Sick Headache is a Certain Indication of an Outcome Apoplexy or Paralysis

Dr. A. W. Chase's Nerve Pills.

If the person subject to attack of dizziness or swimming of the head, commonly called vertigo, would only stop to realize that these symptoms are not a disease in themselves, not temporary ailments, but the plainest sort of warnings from nature of grave troubles of deeper origin, of an exhausted nervous system or of an oncoming apoplexy, epilepsy or paralysis, the matter would receive prompt attention. Dr. A. W. Chase knew this and provided the cure in his celebrated Nerve Pills, a medicine that brings back the glow of health and strength by its power to furnish just what the ill-fed, half-starved nervous system needs, good, rich, wholesome blood and nerve force or energy.

Mr. E. Smith, of No. 1 Union Street, Troy, N. Y., says:

I used to suffer constantly from nervous headache and dizzy spells. They came on at any time and in any place—I was never safe from them—stooping over always resulted in vertigo—my head pained me as well. I got a box of Dr. A. W. Chase's Nerve Pills and they cured the trouble rapidly, easily and completely. It is the best medicine I ever took. I am as sound as a dollar again in every particular and very glad to recommend it to any one in a similar condition as a safe and certain cure." 50c a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of A. W. Chase, M. D., on every package.

FIRE AT OSSISPEE

Store Building Owned by Oscar Mills Burned Last Night—Jesse Howe was Lessee and Lost Heavily.

There was a bad fire at Ossipee last night when the store of Jesse Howe was burned to the ground. The stock of merchandise was owned by Mr. Howe, but the building belonged to Oscar Mills. The fire occurred about 7:15 and every effort to save the building or stock was of no avail. The stock was valued at about \$800 and the building at \$1,000. No insurance was carried either on the stock or the building.

Ossipee is about 12 miles north of Brainerd on the Pine River road. It is understood that Howe bought the stock of merchandise from Mr. Mills but a day or two before the fire.

STARVATION AND EXPOSURE.

Brother and Sister Dead and Another Brother Seriously Ill.

Philadelphia, Feb. 20.—A case of starvation and exposure which resulted in two deaths was revealed by the police during the day who were called upon to investigate a mysterious death on East Haines street. They found Sarah Smith, aged sixty-two years, dead; Benjamin Smith, seventy years, a brother, dying, and Louis Smith, sixty-four years old, another brother, in a serious condition. The house they lived in was a two-story frame affair. There was no fire in the place, nor was there any food to be found. Benjamin Smith was removed to a hospital, where he died at night, and the other brother was taken to the almshouse.

A strange feature of the case is that the brothers had been pensioned by their former employer, and a balance was still standing to their credit. Neighbors say that all three were eccentric.

The funeral services will be held at the home on Wednesday afternoon at 2 o'clock.

TESTED AND PROVEN.

There is a Heap of Solace in Being Able to Depend Upon a Well-earned Reputation.

For months Brainerd readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

Mrs. John C. Beck, of 615 Maple St., Brainerd, Minn., says: "The merits of Doan's Kidney Pills are second to no other kidney medicine. Mr. Beck suffered with his back and kidneys for a long time. There were continual pains and an annoyance from a disturbed condition of the kidneys. He tried one treatment after another but always without noticeable benefit. Doan's Kidney Pills were so highly recommended that he decided to try them and procured a box at H. P. Dunn & Co.'s drug store. It proved just the remedy he needed for the benefit was prompt and effective from the first dose and a continued use of Doan's Kidney Pills entirely eradicated the whole trouble."

Sold for 50 cents a box by H. P. Dunn & Co., and all druggists. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

EN MAY NOT STRIKE.

Indications Point to Settlement of Trouble on New Haven Road.

New Haven, Conn., Feb. 20.—No strike of the firemen on the New York, New Haven and Hartford railway will be declared except as the weapon of last resort. This, in effect, was the announcement made by Second Vice Grand Master Timothy Shea at the close of what was practically an all day session of the adjustment committee of the brotherhood. The committee was called to discuss the matter and count the ballots recently cast giving the committee full power. According to Mr. Shea, the ballot was the largest ever cast on any question by the brotherhood of this system and it is overwhelmingly in favor of giving the committee full authority to act as it sees fit.

Mr. Shea said that it was a determined fact that there could be no strike this week.

Mr. Shea and a sub-committee of the adjustment committee will go to New York to resume discussion of the plan of arbitration now proposed and before their return the plan will be arranged in all its details, it is expected, and formally laid before the officers of the railway company. So sanguine is Mr. Shea that the new plan will prove a solution of the problem that he thinks the acute stage will have been passed by midweek and the firemen will be satisfied with what has been agreed upon.

Library Board Decides to Open the Public Library Reading Room From 2 to 6 O'clock on Sundays

The board of directors of the Brainerd public library at a meeting a few evenings ago decided to open the reading rooms of the library from 2 to 6 o'clock on Sundays, commencing with next Sunday, February 26. No books will be given out on Sundays but the reading room proper will be open to the public.

A committee was instructed to subscribe for a number of current magazines which will be kept on file in the future. For this extra time on Sunday Miss Burgoyne will be allowed extra compensation.

"The Phoenix (Arizona) Republican contains the following notice concerning a former well known citizen of this city: William Percy, master car builder of Wisconsin Central railroad with headquarters at Fon-du-lac, Wis., is visiting with his son, W. G. Percy and family, at Alhambra. During the two months vacation which Mr. Percy is enjoying he had planned an interesting trip. Going west from St. Paul over the N. P. Ry., he spent two weeks at Tacoma, visiting another son, J. W., who is a locomotive machinist, and also visited at Seattle and other Puget Sound points. From Tacoma he made stops at Portland and San Francisco and then spent some time at the principal cities and ocean resorts of southern California, stopping at Phoenix en route home. Coming from Wisconsin, where the temperature is at present below zero, Mr. Percy naturally has much praise for the beautiful winter climate of California and Arizona. After a drive over the valley visiting the points of interest, orange groves, etc., he was much pleased with the agricultural features and enjoyed the green fields in contrast to the snowy mantles of the season at home. After leaving for his home Mr. Percy will stop at Williams and visit the Grand Canyon of Arizona."

IN TRIBUTE TO SENATOR QUAY.

House Conducts Memorial Exercises and Listens to Eulogies.

Washington, Feb. 20.—The house of representatives Sunday conducted memorial exercises in tribute to the memory of the late Senator Matthew S. Quay of Pennsylvania. Mr. Dalzell presided. Several members eulogized Mr. Quay's life and character. The remarks were especially expressive of the esteem in which he was held and extolled him as a man, as a useful public servant and as an organizer of wonderful ability.

After the adoption of appropriate resolutions, the house at 1:40 p. m., as a further mark of respect, adjourned.

Won Each Time.

About thirty years ago a remarkable bet was made between Captain M., a racing celebrity, and another officer who was noted for his activity. Captain M. bet £50 that his fellow officer would not hop up a certain flight of stairs "two at a time." The offer was taken; but, as there were forty-one steps in the flight, he found after taking twenty hops that he was left only one step to negotiate and had lost. He accused Captain M. of sharp practice, but the latter replied:

"Well, I'll wager you another £50 I do it."

The officer, thinking to get back his money, again accepted. Captain M. then hopped up forty steps in twenty hops and, hopping back one, finished by going up the last two steps and won.—London Standard.

CAR THEIVES

BUSY AGAIN
Refrigerator Car of the Armour Packing Company Broken Into Last Night

QUANTITY OF MEAT STOLEN

Officials are Investigating the Matter and Hope to Apprehend the Guilty Parties

The Northern Pacific has been troubled more or less during the past few years with car thieves in the yards in this city. Special officers of the company have been at work and it was thought that the gang that was operating was pretty well cleaned out, but they got busy again last night and a refrigerator car loaded with Armour Packing company meat was broken into and a large quantity of goods stolen.

The officials are on track of what they believe to be a good clue to the guilty parties. The value of the goods and the quantity cannot be determined until the invoices are received from the company, but the value of the meat stolen will reach quite a sum. It is thought that the work was that of a gang of bad youngsters who have been very busy for some time.

Dangerous Vertigo.

Dizziness or Swimming of the Head Associated With a Sense of Fullness, Dull Pain or Nervous Sick Headache is a Certain Indication of an Outcome Apoplexy or Paralysis

Dr. A. W. Chase's Nerve Pills.

If the person subject to attack of dizziness or swimming of the head, commonly called vertigo, would only stop to realize that these symptoms are not a disease in themselves, but temporary ailments, but the plainest sort of warnings from nature of grave troubles of deeper origin, of an exhausted nervous system or of an oncoming apoplexy, epilepsy or paralysis, the matter would receive prompt attention. Dr. A. W. Chase knew this and provided the cure in his celebrated Nerve Pills, a medicine that brings back the glow of health and strength by its power to furnish just what the ily fed, half starved nervous system needs, good, rich wholesome blood and nerve force or energy.

Mr. E. Smith, of No. 1 Union Street, Troy, N. Y., says.

I used to suffer constantly from nervous headache and dizzy spells. They came on at any time and in any place—I was never safe from them—stooping over always resulted in vertigo—my head pained me as well. I got a box of Dr. A. W. Chase's Nerve Pills and they cured the trouble rapidly, easily and completely. It is the best medicine I ever took. I am as sound as a dollar again in every particular and very glad to recommend it to any one in a similar condition as a safe and certain cure." 50c a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of A. W. Chase, M. D., on every package.

FIRE AT OSSIEPEE

Store Building Owned by Oscar Mills Burned Last Night—Jesse Howe was Lessee and Lost Heavily.

There was a bad fire at Ossipee last night when the store of Jesse Howe was burned to the ground. The stock of merchandise was owned by Mr. Howe, but the building belonged to Oscar Mills. The fire occurred about 7:15 and every effort to save the building or stock was of no avail. The stock was valued at about \$800 and the building at \$1,000. No insurance was carried either on the stock or the building.

Ossipee is about 12 miles north of Brainerd on the Pine River road. It is understood that Howe bought the stock of merchandise from Mr. Mills but a day or two before the fire.

STARVATION AND EXPOSURE.

Brother and Sister Dead and Another Brother Seriously Ill.

Philadelphia, Feb. 20.—A case of starvation and exposure which resulted in two deaths was revealed by the police during the day who were called upon to investigate a mysterious death on East Haines street. They found Sarah Smith, aged sixty-two years, dead; Benjamin Smith, seventy years, a brother, dying, and Louis Smith, sixty-four years old, another brother, in a serious condition. The house they lived in was a two-story frame affair. There was no fire in the place, nor was there any food to be found. Benjamin Smith was removed to a hospital, where he died at night, and the other brother was taken to the almshouse.

A strange feature of the case is that the brothers had been pensioned by their former employer, and a balance was still standing to their credit. Neighbors say that all three were eccentric.

If the person subject to attack of dizziness or swarming of the head, commonly called vertigo, would only stop to realize that these symptoms are not a disease in themselves, not temporary ailments, but the plainest sort of warnings from nature of grave troubles of deeper origin, of an exhausted nervous system or of an oncoming apoplexy, epilepsy or paralysis, the matter would receive prompt attention. Dr. A. W. Chase knew this and provided the cure in his celebrated Nerve Pills, a medicine that brings back the glow of health and strength by its power to furnish just what the ill fed, half starved nervous system needs, good, rich wholesome blood and nerve force or energy.

Mr. E. Smith, of No. 1 Union Street, Troy, N. Y., says, "I used to suffer constantly from nervous headache and dizzy spells. They came on at any time and in any place—I was never safe from them—stooping over always resulted in vertigo—my head pained me as well. I got a box of Dr. A. W. Chase's Nerve Pills and they cured the trouble rapidly, easily and completely. It is the best medicine I ever took. I am as sound as a dollar again in every particular and very glad to recommend it to any one in a similar condition as a safe and certain cure." 50c a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of A. W. Chase, M. D., on every package.

FIRE AT OSSIPPEE

Store Building Owned by Oscar Mills Burned Last Night—Jesse Howe was Lessee and Lost Heavily.

There was a bad fire at Ossipee last night when the store of Jesse Howe was burned to the ground. The stock of merchandise was owned by Mr. Howe, but the building belonged to Oscar Mills. The fire occurred about 7:15 and every effort to save the building or stock was of no avail. The stock was valued at about \$800 and the building at \$1,000. No insurance was carried either on the stock or the building.

Ossipee is about 12 miles north of Brainerd on the Pine River road. It is understood that Howe bought the stock of merchandise from Mr. Mills but a day or two before the fire.

STARVATION AND EXPOSURE.

Brother and Sister Dead and Another Brother Seriously Ill.

Philadelphia, Feb. 20.—A case of starvation and exposure which resulted in two deaths was revealed by the police during the day who were called upon to investigate a mysterious death on East Haines street. They found Sarah Smith, aged sixty-two years, dead; Benjamin Smith, seventy years, a brother, dying, and Louis Smith, sixty-four years old, another brother, in a serious condition. The house they lived in was a two-story frame affair. There was no fire in the place, nor was there any food to be found. Benjamin Smith was removed to a hospital, where he died at night, and the other brother was taken to the almshouse.

A strange feature of the case is that the brothers had been pensioned by their former employer, and a balance was still standing to their credit. Neighbors say that all three were eccentric.

WILL BUILD

CREAMERY

Mayor O'Brien Has Decided to Build and has had Plans Drawn Up

IT WILL COST ABOUT \$1500

Location Will be on Laurel Street Between the O'Brien Building and Track

Mayor Con O'Brien has the plans for a new creamery which he will build on his lots on Laurel street between his place of business and the railroad track. He has decided to go ahead with the work as soon as the lease of the building will have been signed by J. R. Armstrong, the creamery man who was here a short time ago looking the city over.

At that time Mr. Armstrong seemed very favorably impressed and expressed a desire to come in here and run a creamery if the proper location could be secured and the right kind of a building. Mr. O'Brien with his usual progressiveness decided to erect the building.

It will be a structure 22x44, with an engine room adjoining 20x20. It will be modern in every respect and will be one of the best creameries in the northern part of the state.

Mr. Armstrong is an experienced business man as well as being a man of long experience in creameries. He expects to devote his entire time to the business here and no end of good will result, as it will create a market for cream and milk which the farmers in the vicinity of Brainerd have long sought. The building will cost in the neighborhood of \$1500.

MUSIC AND DRAMA.

"THE VIRGINIAN".

The sale of seats and boxes for "The Virginian" will open Wednesday morning. The play is to be seen here at the Brainerd opera house on Thursday evening, Feb. 23. It is a dramatization of Owen Wister's widely read story of the same name, and the popularity of Mr. Wister's novel has been so great that there seems to be little doubt as to the welcome which its stage version will receive here. The authors of the dramatization have preserved all the charm and beauty of the unique romance between the cow-boy hero and the Vermont school teacher, it is said, and there can be no question as to the pleasing qualities of the play. The two lovers are to be impersonated by Dustin Farnum and Helen Holmes. The principals of the New York cast will all appear here.

"The Virginian" has been having a successful two weeks run in the twin cities. It is one of the few plays that have been presented in both cities for seven night runs, most of the attractions playing there being booked for three nights. The company carries a special car of scenery and there are about thirty people in the cast. Prices: Parquet and first two rows of circle, \$1.50; balance of circle and first two rows of balcony, \$1.00; balance of balcony, 75c; gallery, 50c.

GRADING OUTFIT

PASSES THROUGH

En Route from St. Paul to Northome for Work on the M. & I. Extension

CONTRACT FOR WORK IS LET

Preparations Are Being Made to Push the Work with a Large Force of Men.

Yesterday three carloads of grading outfit passed through the city en route from St. Paul to Northome to be used on the construction work which is to be done on the Minnesota & International this summer.

The road will be extended to the Big Fork river in northern Itasca county the present year. A contract for its construction from the present northern terminus for a distance of thirty miles, has been awarded to A. Guthrie and company, of St. Paul, a well known firm of railway contractors. Word comes from Bemidji that preparations are now being made for pushing the work of construction with a large force of men.

The Minnesota & International is headed for Koochiching, on the Rainy river and from present prospects it will be the first line to build to the Canadian border from the south. When the extension is completed the road will be within thirty miles of Koochiching.

The Minnesota & International is controlled by the Northern Pacific. It runs from Brainerd north through Bemidji to Northome, a distance of 154 miles, and has in its equipment eighteen locomotives and 473 cars.

A Letter From Col. Freeman Thorpe States That He Painted a Portrait of Andrew Carnegie

A letter has been received here from Col. Freeman Thorpe, who is now in Washington, in which he states that he has painted a portrait of Andrew Carnegie, and the sittings were had at Mr. Carnegie's Fifth avenue home in New York. Mr. Thorpe says that Mr. Carnegie is so much pleased with the portrait that he declares he will never sit for another and that hereafter when any portrait of him is needed he will have to copy this one. A good many of them, according to Mr. Thorpe, will be needed for the many libraries he has established. In his letter Mr. Thorpe stated that he was not sure whether Mr. Carnegie would give the portraits to the libraries or not. He has suggested that the library board here write to Mr. Carnegie and request one of the portraits for the library here. He stated that he was sure that the great philanthropist would consider it a compliment, even though he might not grant the request.

RAISED A MONEY ORDER

William Bisson Arrested at Little Falls and Taken to Duluth by Deputy U. S. Marshal Converse.

William Bisson, whose home is on the White Earth Indian reservation, was taken to Duluth Saturday by U. S. Deputy Marshal Converse, of Detroit, says the Little Falls Transcript. The prisoner is charged with changing a money order, and admits that he made the alterations.

On Wednesday Bisson applied at the Brainerd postoffice for a money order on Little Falls for \$1. He used the name Mark Branchand in making the application, and had the order payable to himself, Wm. Bisson. After getting the order he placed the figure 9 before the figure 1 in the order and wrote the word "nine" before the written word "one." He then came to Little Falls and on Thursday, the 16th, tried to negotiate the order for \$91. He tried various

stores and banks, but could not get the money, and the postoffice refused to pay it. It was a very evident change and the Brainerd advice also showed the original amount. He told contradictory stories about it, and he finally gave up the order and was placed in charge of the sheriff.

The postal authorities at St. Paul were notified, and Deputy Marshal Converse arrived Friday with a warrant and assumed charge of the prisoner. Saturday morning Bisson was brought before U. S. Commissioner Cameron and had a hearing. He told of buying the order, but claimed that Mark Branchand had planned the scheme with him. But he admitted that he had written in the changes himself and had tried to sell it and to get it cashed at the postoffice for \$91.

Bisson gives his age as 18 years, and says he was born in Belle Prairie. His father, Felix Bisson, and family moved from Belle Prairie to White Earth before 1890.

We Paid \$100,000

For Liquozone, Yet We Give You a 50c. Bottle Free.

We paid \$100,000 for the American rights to Liquozone; the highest price ever paid for similar rights on any scientific discovery. We did this after testing the product for two years, through physicians and hospitals, in this country and others. We cured all kinds of germ diseases with it—thousands of the most difficult cases obtainable. We proved that in germ troubles it always accomplishes what medicine cannot do. Now we ask you to try it—try it at our expense. Test it as we did; see what it does. Then you will use it always, as we do, and as millions of others do. You will use it, not only to get well, but to keep well. And it will save nearly all of your sickness.

Kills Inside Germs.

Liquozone is not made by compounding drugs, nor is there alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill.

The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Liquozone. It is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact that gives Liquozone its worth to humanity. And that worth is so great that we have spent over one million dollars to supply the first bottle free to each sick one we learned of.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

THE NEW STORE

RAISED A MONEY ORDER

William Bisson Arrested at Little Falls and Taken to Duluth by Deputy U. S. Marshal Converse.

William Bisson, whose home is on the White Earth Indian reservation, was taken to Duluth Saturday by U.S. Deputy Marshal Converse, of Detroit, says the Little Falls Transcript. The prisoner is charged with changing a money order, and admits that he made the alterations.

On Wednesday Bisson applied at the Brainerd postoffice for a money order on Little Falls for \$1. He used the name Mark Branch and in making the application, and had the order payable to himself, Wm. Bisson. After getting the order he placed the figure 9 before the figure 1 in the order and wrote the word "nine" before the written word "one." He then came to Little Falls and on Thursday, the 10th, tried to negotiate the order for \$91. He tried various

stores and banks, but could not get the money, and the postoffice refused to pay it. It was a very evident change and the Brainerd advice also showed the original amount. He told contradictory stories about it, and he finally gave up the order and was placed in charge of the sheriff.

The postal authorities at St. Paul were notified, and Deputy Marshal Converse arrived Friday with a warrant and assumed charge of the prisoner. Saturday morning Bisson was brought before U. S. Commissioner Cameron and had a hearing. He told of buying the order, but claimed that Mark Branch and had planned the scheme with him. But he admitted that he had written in the changes himself and had tried to sell it and to get it cashed at the postoffice for \$91.

Bisson gives his age as 18 years, and says he was born in Belle Prairie. His father, Felix Bisson, and family moved from Belle Prairie to White Earth before 1890.

We Paid \$100,000

For Liquezone, Yet We Give You a 50c. Bottle Free.

We paid \$100,000 for the American rights to Liquezone; the highest price ever paid for similar rights on any scientific discovery. We did this after testing the product for two years, through physicians and hospitals, in this country and others. We cured all kinds of germ diseases with it—thousands of the most difficult cases obtainable. We proved that in germ troubles it always accomplishes what medicine cannot do. Now we ask you to try it—try it at our expense. Test it as we did; see what it does. Then you will use it always, as we do, and as millions of others do. You will use it, not only to get well, but to keep well. And it will save nearly all of your sickness.

Kills Inside Germs.

Liquezone is not made by compounding drugs, nor is there alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill.

The reason is that germs are vegetables; and Liquezone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Liquezone. It is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact that gives Liquezone its worth to humanity. And that worth is so great that we have spent over one million dollars to supply the first bottle free to each sick one we learned of.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Paine's Celery Compound Makes Nerve Force

Nerve Force rules the world. Health—the satisfaction of living,—is the right of every man and woman born into the world.

Health is a question of keeping all the organs of the body working together in fine, smooth, harmony.

The force that rules them all—that makes them work as nature meant and makes them keep in harmony—is Nerve Force.

Without Nerve Force there can be no health at all—no success—no joy in living.

The center of life is in the nerves. The real root of health or sickness is found in the condition of the nerves.

Neglect the nerves and they will make you feel this neglect in many ways, they control all of the organs of the body and must be kept healthy and strong to do their work properly,—tired nerves cannot keep the organs of the body working in that harmony which is essential to real health.

This is why Paine's Celery Compound is able to bring health in so many different forms. Paine's Celery Compound feeds and nourishes the nerves. It makes new Nerve Force. It makes pure, rich blood, a clean active liver, a stomach that acts quietly and strongly upon all the food that is given to it, bowels that throw away promptly and surely all the ashes from life's engine room.

It makes the heart beat true and evenly, it makes the brain clear and vigorous.

The Nerve Force does this all, and Paine's Celery Compound makes the Nerve Force.

Best of all it makes that buoyant life-spirit, the thrill of health, that is the secret of happiness and the keynote of individual success.

This is the work of Paine's Celery Compound. It is the most celebrated nerve vitalizer and tonic in the world.

We give the testimony of many individual cases, simply that you may know their experience in their own words.

"I am a man of more than 60 years, and for the past 20 years I was a great sufferer with acute stomach trouble and rheumatism. I tried a number of specialists, but their efforts were unavailing and I felt as though life was not worth living, and I had given up all hope of being a well man again. My wife, who also had stomach trouble, at the suggestion of a friend, tried two bottles of Paine's Celery Compound and was fully restored to health. She then encouraged me to try the same medicine; I did so, and now I am a sound and well man, able to work every day. I bless my good wife every day for my good health, as she got me to take Paine's Celery Compound, in my opinion the greatest medicine ever given to the world for nervousness, stomach trouble, rheumatism and kindred ailments. Yours very truly,—Martin Baldwin, 610 North 10th St., St. Joseph, Mo. Feb. 25, 1904.

Doctors know and value this prescription and make constant use of it in their practice.

Its effect is almost instantaneous—the nourishment and vigor given to the nerve system by Paine's Celery Compound is felt at once.

The patient feels this at once and gains confidence by it.

The Nerve Force begins at once to make each organ of the body do the work that nature expects of it.

Two days' treatment with Paine's Celery Compound will prove its marvelous power.

Remember this,—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, Prof. E. E. Phelps, of Dartmouth University, and all reputable druggists sell and recommend it.

BATTLES THE POLICE

ST. PAUL OFFICERS FAIL TO FIND
THE SLAYER OF CHRISTIAN
H. SCHINDELDECKER.

FOUR SUSPECTS LIBERATED

ALL PROVE TO OFFICERS THAT
THEY DID NOT COMMIT THE
BRUTAL MURDER.

St. Paul, Feb. 20.—Although four suspects have been arrested and questioned by the police at various times since the mangled remains of Christian H. Schindeldecker were found Saturday noon in the shed in the rear of his meat market, 523 West Seventh street, the murderer is still at large.

All of the suspects arrested were closely interrogated by Chief O'Connor and all proved to the complete satisfaction of the police that they were innocent of any criminal knowledge of the murder. Walter Gerenz, delivery clerk in the meat market, who first gave the alarm of the murder, was able to so completely account for every moment of his actions during the noon hour Saturday that he was released.

Two negroes arrested by the police proved absolutely that they were in other parts of the city when the murder was committed.

The fourth suspect, a white man, living in close proximity to the meat market, showed to the complete satisfaction of the police that he was not in any way concerned with the commission of the crime.

Hope to Arrest Real Culprit.

But, while the real culprit is not jailed, Chief O'Connor is hopeful and confident that within twenty-four hours a man will be behind the bars who will be able to clear up the whole ghoulish mystery.

The arrest of this man will be effected through connecting the ownership of a tinsmith's hammer, two penknives, and a soiled handkerchief, all four articles being at present in the possession of the police, who found them in the room where the brutal murder was committed, and who are reasonably certain they were left there in the hasty flight of the murderer.

It appears that the murderer first stunned his victim with the hammer, then dragged the body into the rear room and hacked it viciously with a cleaver after nailing up the front door. The murder greatly resembles the Gebhard tragedy at New Ulm.

The amount of money the murderer obtained from his victim is unknown. No person yet found saw the murderer either enter the shop or leave it.

LEGISLATION IN THE HOUSE.

Only That Which is Absolutely Necessary is in Order This Week.

Washington, Feb. 20.—Nothing but absolutely necessary legislation is the order in the house this week. This legislation, so far as can be indicated in advance, will consist of the completion of the naval appropriation bill, early in the week, and consideration of the river and harbor and sundry civil appropriation bills, a programme which will occupy the week.

As the time draws near for the expiration of the congress the legislative days will be gradually lengthened to correspond with the amount of work that still remains unfinished and must be completed in order that the government may be carried on. There remains in committee the last of the appropriation bills—the general deficiency, which is held back for emergencies.

The statehood bill is to be considered in conference during the week, but there is nothing to indicate that an agreement will be reached before the session is in its last moments.

The public buildings bill is to be a matter of contest during the week between the committee on rules and those members of the house who are enthusiastic in its support. A combined movement on the speaker has been organized for the purpose of securing a rule for the passage of this bill. Other measures which are knocking at the door of the committee on rules for "special orders" include the bill for government participation in the Jamestown exposition.

ANOTHER ATLANTIC CABLE.

Expected That It Will Be in Operation the Coming Summer.

New York, Feb. 20.—Another Atlantic cable is to be laid by the Commercial Cable company and bids for its laying have already been received. The route has been determined and it is expected the new cable will be in operation during the coming summer. The new cable will be of high speed and will embody the latest discoveries in that branch of electrical work.

Steel Casting Plant Destroyed.

Detroit, Mich., Feb. 20.—Fire during the day almost entirely destroyed the plant of the Detroit Steel Casting company, causing a loss of \$100,000. Two hundred and twenty-five men are thrown out of employment.

Destructive Fire in Denver.

Denver, Feb. 20.—The Symmes block, a three-story structure occupied by stores and offices, was destroyed by fire during the day, entailing loss estimated at \$300,000.

THE MINNESOTA

Five New Measures Make Their Appearance in the House.

St. Paul, Feb. 20.—The second Saturday session of the Minnesota state legislature was productive of five new bills of general interest in the house. One by S. D. Peterson provides that suicide shall not be a defense against the payment of life insurance policy. H. F. 356, by Bennett, provides that the hours of labor for females employed in stores shall not be more than eight hours, except for six days before Christmas. H. F. 340, by S. D. Peterson, provides for regulating and licensing the business of buying or selling stocks, bonds, grain, etc., for future delivery or on options or margins. H. F. 342, by Haskell, amends the primary law to require tickets of all political parties printed on one label in parallel columns. H. F. 341, by Dorsey, is a constitutional amendment to tax franchises and incomes. H. F. 343, by Rowe, is a constitutional amendment allowing farmers and gardeners to sell produce raised by them anywhere in the state without a license of any sort. Several bills of local interest were introduced.

A communication was received by the house from the North Dakota legislature, urging the enactment of law requiring elevators to make returns to farmers on screenings. The communication stated the elevators docked grain received and retained and sold the screenings, the farmer, however, receiving no compensation therefor.

The house adjourned to Tuesday. The senate met and adjourned to Tuesday without transacting any business.

AMENDMENT HELD TO BE VALID.

Judge Evans Renders Decision on Iowa's Biennial Election Law.

Des Moines, Ia., Feb. 20.—Judge W. R. Evans has decided that the biennial election amendment to the constitution of the State of Iowa was valid in an opinion placed on file with the clerk of court of the Story county courts. The court holds that the five divisions of the amendment which the contestants insisted should have been submitted to the people as separate amendments were integral parts of the one proposition and were necessary to make the measure properly operative.

According to previous agreement between the parties to the suit an appeal to the supreme court will be taken immediately in order that the validity of the amendment may be determined.

Costly Fire at New Orleans.

New Orleans, Feb. 20.—Fire during the day gutted the top floors of the Macheka building, a seven-story office structure, entailing a loss of \$150,000.

TELEGRAPHIC BREVITIES.

At Tyler, Tex., fire destroyed seven business houses Sunday, causing a loss of \$150,000.

Three paroled Russian navy captains and eleven lieutenants have arrived at San Francisco from Port Arthur en route to Russia.

Midshipman Samuel Westray Battle of Asheville, N. C., of the second class at the naval academy at Annapolis, dropped dead of heart failure Sunday.

A large army of visiting bowlers reached Milwaukee Sunday and the American Bowling congress tourney may be said to have gotten started in good shape.

The story to the effect that an attempt was made recently to poison Mrs. J. L. Stanford at her home in San Francisco, is characterized by Mrs. Stanford's friends as without foundation.

George Edward McDill, member of the Wisconsin board of normal school regents, cashier of the Citizens' National bank, a pioneer and wealthy citizen, died Sunday at Stevens Point, Wis.

ON JOINT STATEHOOD BILL.

Senate Will Consider Motion to Apportion Conferees.

Washington, Feb. 20.—The senate will begin the week with consideration of the motion to appoint conferees on the joint statehood bill. The general understanding is that this motion will prevail and that the bill will go to conference. In case the committee recedes from the important senate amendments, a sharp contest will probably ensue.

The Swayne impeachment trial will proceed at once, and it is now anticipated that the termination of the proceedings will be reached before a great while. The prosecution will introduce only one or two more witnesses and it is announced the defense will not call a great number of witnesses.

The postoffice appropriation bill will be called up Tuesday and this and other supply bills will be kept well toward the front.

DISTRIBUTED BROADCAST.

Revolutionary Literature Scattered Around St. Petersburg.

St. Petersburg, Feb. 20.—Revolutionary literature is being distributed broadcast throughout the capital and is to be picked up in offices and factories, wherever it can be scattered unobserved. These pamphlets assert that dissatisfaction is fast spreading in the army.

Prepares for the Operation.

Chicago, Feb. 20.—President William R. Harper of the University of Chicago was taken to the Presbyterian hospital during the day, where he will be prepared for the operation to be performed on him next Wednesday. According to the statement of the physicians, Dr. Harper's condition remains unchanged. Dr. Harper believes he is suffering from cancer and has slight hopes of recovery.

ROCK CRUSHER WORKING

The Improvements Made on Old Crusher Make it Possible for Men to Turn Out Large Quantity.

The old rock crusher operated by the city for the past few years is grinding away again on Laurel street between the Con O'Brien store and the railroad track. A short time ago the crusher was completely overhauled and repaired under the direction of Chairman Opsahl of the street committee and Street Commissioner Laing. The gentlemen in charge state that since they started the crusher it has been doing good work. It has been running two days now. The street committee has purchased a large amount of rock and they expect to have enough of the crushed material on hand so that work on the streets can be commenced early in the spring.

Paine's Celery Compound

Makes Nerve Force

Nerve Force rules the world. Health—the satisfaction of living,—is the right of every man and woman born into the world.

Health is a question of keeping all the organs of the body working together in fine, smooth, harmony.

The force that rules them all—that makes them work as nature meant and makes them keep in harmony—is Nerve Force.

Without Nerve Force there can be no health at all—no success—no joy in living.

The center of life is in the nerves.

The real root of health or sickness is found in the condition of the nerves.

Neglect the nerves and they will make you feel this neglect in many ways, they control all of the organs of the body and must be kept healthy and strong to do their work properly,—tired nerves cannot keep the organs of the body working in that harmony which is essential to real health.

This is why Paine's Celery Compound is able to bring health in so many different forms. Paine's Celery Compound feeds and nourishes the nerves. It makes new Nerve Force. It makes pure, rich blood, a clean active liver, a stomach that acts quietly and strongly upon all the food that is given to it, bowels that throw away promptly and surely all the ashes from life's engine room.

It makes the heart beat true and evenly, it makes the brain clear and vigorous.

The Nerve Force does this all, and Paine's Celery Compound makes the Nerve Force.

Best of all it makes that buoyant life-spirit, the thrill of health, that is the secret of happiness and the keynote of individual success.

This is the work of Paine's Celery Compound. It is the most celebrated nerve vitalizer and tonic in the world.

We give the testimony of many individual cases, simply that you may know their experience in their own words.

"I am a man of more than 60 years, and for the past 20 years I was a great sufferer with acute stomach trouble and rheumatism. I tried a number of specialists, but their efforts were unavailing and I felt as though life was not worth living, and I had given up all hope of being a well man again. My wife, who also had stomach trouble, at the suggestion of a friend, tried two bottles of Paine's Celery Compound and was fully restored to health. She then encouraged me to try the same medicine; I did so, and now I am a sound and well man, able to work every day. I bless my good wife every day for my good health, as she got me to take Paine's Celery Compound, in my opinion the greatest medicine ever given to the world for nervousness, stomach trouble, rheumatism and kindred ailments. Yours very truly,"—Martin Baldwin, 610 North 10th St., St. Joseph, Mo. Feb. 25, 1904.

Doctors know and value this prescription and make constant use of it in their practice.

Its effect is almost instantaneous—the nourishment and vigor given to the nerve system by Paine's Celery Compound is felt at once.

The patient feels this at once and gains confidence by it.

The Nerve Force begins at once to make each organ of the body do the work that nature expects of it.

Two days' treatment with Paine's Celery Compound will prove its marvelous power.

Remember this,—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, Prof. E. E. Phelps, of Dartmouth University, and all reputable druggists sell and recommend it.

St. Paul, Feb. 20.—Although four suspects have been arrested and questioned by the police at various times since the mangled remains of Christian H. Schindeldecker were found Saturday noon in the shed in the rear of his meat market, 523 West Seventh street, the murderer is still at large.

All of the suspects arrested were closely interrogated by Chief O'Connor and all proved to the complete satisfaction of the police that they were innocent of any criminal knowledge of the murder. Walter Gerenz, delivery clerk in the meat market, who first gave the alarm of the murder, was able to so completely account for every moment of his actions during the noon hour Saturday that he was released.

But, while the real culprit is not jailed, Chief O'Connor is hopeful and confident that within twenty-four hours a man will be behind the bars who will be able to clear up the whole ghoulish mystery.

The arrest of this man will be effected through connecting the ownership of a tinsmith's hammer, two penknives, and a soiled handkerchief, all four articles being at present in the possession of the police, who found them in the room where the brutal murder was committed, and who are reasonably certain they were left there in the hasty flight of the murderer.

It appears that the murderer first stunned his victim with the hammer, then dragged the body into the rear room and hacked it viciously with a cleaver after nailing up the front door. The murder greatly resembles the Gebhard tragedy at New Ulm.

The amount of money the murderer obtained from his victim is unknown.

Only That Which Is Absolutely Necessary Is in Order This Week.

Washington, Feb. 20.—Nothing but absolutely necessary legislation is the order in the house this week. This legislation, so far as can be indicated in advance, will consist of the completion of the naval appropriation bill, early in the week, and consideration of the river and harbor and sundry civil appropriation bills, a programme which will occupy the week.

As the time draws near for the expiration of the congress the legislative days will be gradually lengthened to correspond with the amount of work that still remains unfinished and must be completed in order that the government may be carried on. There remains in committee the last of the appropriation bills—the general deficiency, which is held back for emergencies.

The statehood bill is to be considered in conference during the week, but there is nothing to indicate that an agreement will be reached before the session is in its last moments.

The public buildings bill is to be a matter of contest during the week between the committee on rules and those members of the house who are enthusiastic in its support. A combative movement on the speaker has been organized for the purpose of securing a rule for the passage of this bill. Other measures which are knocking at the door of the committee on rules for "special orders" include the bill for government participation in the Jamestown exposition.

ANOTHER ATLANTIC CABLE.

Expected That It Will Be in Operation the Coming Summer.

New York, Feb. 20.—Another Atlantic cable is to be laid by the Commercial Cable company and bids for its laying have already been received. The route has been determined and it is expected the new cable will be in operation during the coming summer. The new cable will be of high speed and will embody the latest discoveries in that branch of electrical work.

Steel Casting Plant Destroyed.

Detroit, Mich., Feb. 20.—Fire during the day almost entirely destroyed the plant of the Detroit Steel Casting company, causing a loss of \$100,000. Two hundred and twenty-five men are thrown out of employment.

Destructive Fire in Denver.

Denver, Feb. 20.—The Symmes block, a three-story structure occupied by stores and offices, was destroyed by fire during the day, entailing loss estimated at \$200,000.

THE MINNESOTA

Five New Measures Make Their Appearance in the House.

St. Paul, Feb. 20.—The second Saturday session of the Minnesota state legislature was productive of five new bills of general interest in the house. One by S. D. Peterson provides that suicide shall not be a defense against the payment of life insurance policy. H. F. 336, by Bennett, provides that the hours of labor for females employed in stores shall not be more than eight hours, except for six days before Christmas. H. F. 340, by S. D. Peterson, provides for regulating and licensing the business of buying or selling stocks, bonds, grain, etc., for future delivery or on options or margins. H. F. 342, by Haskell, amends the primary law to require tickets of all political parties printed on one half of in parallel columns. H. F. 341, by Dorsey, is a constitutional amendment to tax franchises and incomes. H. F. 343, by Rowe, is a constitutional amendment allowing farmers and gardeners to sell produce raised by them anywhere in the state without a license of any sort. Several bills of local interest were introduced.

A communication was received by the house from the North Dakota legislature, urging the enactment of law requiring elevators to make returns to farmers on screenings. The communication stated the elevators docked grain received and retained and sold the screenings, the farmer, however, receiving no compensation therefor. The house adjourned to Tuesday. The senate met and adjourned to Tuesday without transacting any business.

AMENDMENT HELD TO BE VALID.

Judge Evans Renders Decision on Iowa's Biennial Election Law.

Des Moines, Ia., Feb. 20.—Judge W. B. Evans has decided that the biennial election amendment to the constitution of the State of Iowa was valid in an opinion placed on file with the clerk of court of the Story county courts. The court holds that the five divisions of the amendment which the contestants insisted should have been submitted to the people as separate amendments were integral parts of the one proposition and were necessary to make the measure properly operative.

According to previous agreement between the parties to the suit an appeal to the supreme court will be taken immediately in order that the validity of the amendment may be determined.

Costly Fire at New Orleans.

New Orleans, Feb. 20.—Fire during the day gutted the top floors of the Machea building, a seven-story office structure, entailing a loss of \$150,000.

TELEGRAPHIC BREVITIES.

At Tyler, Tex., fire destroyed seven business houses Sunday, causing a loss of \$150,000.

Three paroled Russian navy captains and eleven lieutenants have arrived at San Francisco from Port Arthur en route to Russia.

Midshipman Samuel Westray Battle of Asheville, N. C., of the second class at the naval academy at Annapolis, dropped dead of heart failure Sunday.

A large army of visiting bowlers reached Milwaukee Sunday and the American Bowling congress tourney may be said to have gotten started in good shape.

The story to the effect that an attempt was made recently to poison Mrs. J. L. Stanford at her home in San Francisco, is characterized by Mrs. Stanford's friends as without foundation.

George Edward McDill, member of the Wisconsin board of normal school regents, cashier of the Citizens' National bank, a pioneer and wealthy citizen, died Sunday at Stevens Point, Wis.

ON JOINT STATEHOOD BILL.

Senate Will Consider Motion to Appoint Conferees.

Washington, Feb. 20.—The senate will begin the week with consideration of the motion to appoint conferees on the joint statehood bill. The general understanding is that this motion will prevail and that the bill will go to conference. In case the committee recedes from the important senate amendments, a sharp contest will probably ensue.

The Swayne impeachment trial will proceed at once, and it is now anticipated that the termination of the proceedings will be reached before a great while. The prosecution will introduce only one or two more witnesses and it is announced the defense will not call a great number of witnesses.

The postoffice appropriation bill will be called up Tuesday and this and other supply bills will be kept well toward the front.

DISTRIBUTED BROADCAST.

Revolutionary Literature Scattered Around St. Petersburg.

St. Petersburg, Feb. 20.—Revolutionary literature is being distributed broadcast throughout the capital and is to be picked up in offices and factories, wherever it can be scattered unobserved. These pamphlets assert that dissatisfaction is fast spreading in the army.

Prepares for the Operation.

Chicago, Feb. 20.—President William R. Harper of the University of Chicago was taken to the Presbyterian hospital during the day, where he will be prepared for the operation to be performed on him next Wednesday. According to the statement of the physicians, Dr. Harper's condition remains unchanged. Dr. Harper believes he is suffering from cancer and has slight hopes of recovery.

ROCK CRUSHER WORKING

The Improvements Made on Old Crusher Make it Possible for Men to Turn Out Large Quantity.

The old rock crusher operated by the city for the past few years is grinding away again on Laurel street between the Con O'Brien store and the railroad track. A short time ago the crusher was completely overhauled and repaired under the direction of Chairman Opsahl of the street committee and Street Commissioner Laing. The gentlemen in charge state that since they started the crusher it has been doing good work. It has been running two days now. The street committee has purchased a large amount of rock and they expect to have enough of the crushed material on hand so that work on the streets can be commenced early in the spring.

Paine's Celery Compound Makes Nerve Force

Nerve Force rules the world. Health—the satisfaction of living,—is the right of every man and woman born into the world.

Health is a question of keeping all the organs of the body working together in fine, smooth, harmony.

The force that rules them all—that makes them work as nature meant and makes them keep in harmony—is Nerve Force.

Without Nerve Force there can be no health at all—no success—no joy in living.

The center of life is in the nerves.

The real root of health or sickness is found in the condition of the nerves.

Neglect the nerves and they will make you feel this neglect in many ways, they control all of the organs of the body and must be kept healthy and strong to do their work properly,—tired nerves cannot keep the organs of the body working in that harmony which is essential to real health.

This is why Paine's Celery Compound is able to bring health in so many different forms. Paine's Celery Compound feeds and nourishes the nerves. It makes new Nerve Force. It makes pure, rich blood, a clean active liver, a stomach that acts quietly and strongly upon all the food that is given to it, bowels that throw away promptly and surely all the ashes from life's engine room.

It makes the heart beat true and evenly, it makes the brain clear and vigorous.

The Nerve Force does this all, and Paine's Celery Compound makes the Nerve Force.

Best of all it makes that buoyant life-spirit, the thrill of health, that is the secret of happiness and the keynote of individual success.

This is the work of Paine's Celery Compound. It is the most celebrated nerve vitalizer and tonic in the world.

We give the testimony of many individual cases, simply that you may know their experience in their own words.

"I am a man of more than 60 years, and for the past 20 years I was a great sufferer with acute stomach trouble and rheumatism. I tried a number of specialists, but their efforts were unavailing and I felt as though life was not worth living, and I had given up all hope of being a well man again. My wife, who also had stomach trouble, at the suggestion of a friend, tried two bottles of Paine's Celery Compound and was fully restored to health. She then encouraged me to try the same medicine; I did so, and now I am a sound and well man, able to work every day. I bless my good wife every day for my good health, as she got me to take Paine's Celery Compound, in my opinion the greatest medicine ever given to the world for nervousness, stomach trouble, rheumatism and kindred ailments. Yours very truly,"—Martin Baldwin, 610 North 10th St., St. Joseph, Mo. Feb. 25, 1904.

Doctors know and value this prescription and make constant use of it in their practice.

Its effect is almost instantaneous—the nourishment and vigor given to the nerve system by Paine's Celery Compound is felt at once.

The patient feels this at once and gains confidence by it.

The Nerve Force begins at once to make each organ of the body do the work that nature expects of it.

Two days' treatment with Paine's Celery Compound will prove its marvelous power.

Remember this.—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, Prof. E. E. Phelps, of Dartmouth University, and all reputable druggists sell and recommend it.

BATTLES THE POLICE

ST. PAUL OFFICERS FAIL TO FIND
THE SLAYER OF CHRISTIAN
H. SCHINDELDECKER.

FOUR SUSPECTS LIBERATED

ALL PROVE TO OFFICERS THAT
THEY DID NOT COMMIT THE
BRUTAL MURDER.

St. Paul, Feb. 20.—Although four suspects have been arrested and questioned by the police at various times since the mangled remains of Christian H. Schindeldecker were found Saturday noon in the shed in the rear of his meat market, 523 West Seventh street, the murderer is still at large.

All of the suspects arrested were closely interrogated by Chief O'Connor and all proved to the complete satisfaction of the police that they were innocent of any criminal knowledge of the murder. Walter Gerenz, delivery clerk in the meat market, who first gave the alarm of the murder, was able to so completely account for every moment of his actions during the noon hour Saturday that he was released.

Two negroes arrested by the police proved absolutely that they were in other parts of the city when the murder was committed.

The fourth suspect, a white man, living in close proximity to the meat market, showed to the complete satisfaction of the police that he was not in any way concerned with the commission of the crime.

Hope to Arrest Real Culprit.

But, while the real culprit is not jailed, Chief O'Connor is hopeful and confident that within twenty-four hours a man will be behind the bars who will be able to clear up the whole gruesome mystery.

The arrest of this man will be effected through connecting the ownership of a tinsmith's hammer, two penknives, and a soiled handkerchief, all four articles being at present in the possession of the police, who found them in the room where the brutal murder was committed, and who are reasonably certain they were left there in the hasty flight of the murderer.

It appears that the murderer first stunned his victim with the hammer, then dragged the body into the rear room and hacked it viciously with a cleaver after nailing up the front door. The murder greatly resembles the Gebhard tragedy at New Ulm.

The amount of money the murderer obtained from his victim is unknown. No person yet found saw the murderer either enter the shop or leave it.
